December 13, 2018

Recently on social media, some POA members have made comments concerning the POA staff. The Board of Directors (BOD) finds these comments to have maligned the staff and unfairly judged the integrity of the staff as it performs its duties for the membership.

As the BOD, we vote on many issues and some will be disappointed with the result; this is understandable.

It is not understandable to suggest that the POA staff is construing facts to serve some purpose that is inconsistent with the POA's mission or that the BOD are "scapegoats" or there is a "fox in the henhouse." The staff executes the BOD's policies without ulterior motives.

The BOD asks all members to be mindful of comments made, even when disagreeing with a decision.

Thank you,

Your POA Board of Directors
