I've been an Island property owner since 2001 and have seen many board members come and go. And too often, there has been too many controversies on board leadership and distrust of the board function. I want to bring Integrity and Trust back to the POA!

I have decades of corporate and government leadership experience, including having held positions of planning, decision making, contractor management, problem solving, and execution of high dollar projects. Past employers have included: Ohio EPA, Waste Management, Inc., Exxon, Koch Industries, REMAX, City of Corpus Christi, GE Aviation, GE Oil & Gas, Trafigura, and Buckeye Partners.

I have a solid leadership experience, including having been on a GE Executive team and awarded as a team member the GE Chairman's Award of Excellence.

Although becoming a POA board member is a volunteer position, taking on the role and responsibilities must be treated and managed like a corporate job! Performed with honesty, integrity, fairness, and a mission of making decisions that's fully TRANSPARENT and what's best for the future of the community!

I seek the vote of the property owners to lead the board into a new era of Excellence! No less!

Thank you!
